

Press release Almere, 4 December 2013

To help the Philippines after the devastating typhoon Haiyan on Friday 8 November 2013, Victron Energy donated 60 Solar mobile phone chargers and 60 batteries. The Solar mobile phone charger can charge 20 mobile phones at the same time. The Dutch relief organisation 'HHCP' (Heetense Hulpgoederen Centrum Philippines) has shipped the Victron equipment to the capital of Leyte, Tacloban, Philippines. The goods will arrive at the end of December, the people from HHCP will then be on location to receive the goods and make sure they are distributed and installed properly.

Typhoon Haiyan

Typhoon Haiyan has cost the lives of thousands of people. It has been the most devastating typhoon in the world this year. Large numbers of buildings and houses have been completely destroyed and transmission lines toppled or badly damaged. Restoring the power supply in Tacloban may take up to six months.

Solar mobile phone chargers

Victron Energy wants to help the survivors of the typhoon. For this reason, Victron is donating 60 Solar mobile phone chargers with 60 batteries to the Philippines. The Solar mobile phone charger is a box with a Solar panel, a charger and an inverter. On the outside of the box power points have been mounted to enable the charging of 20 mobile phones at the same time.
